

REMARKS/ARGUMENTS

Claims 1, 3-12, and 19 are pending. Claims 13-18 have been withdrawn from consideration by the Examiner. Applicant maintains his traversal of the Restriction Requirement set forth in the Reply to Election/Restriction Requirement filed November 6, 2008. By this Amendment, the title, the Abstract, the specification, claims 1, and 3-12 are amended, claims 13-18 are canceled without prejudice or disclaimer, and claim 19 is added. No new matter is added. Claims 13-18 have been canceled to be pursued in a Continuation/Divisional application. Support for the claims can be found throughout the specification, including the original claims, and the drawings. Reconsideration in view of the above amendments and following remarks is respectfully requested.

The Examiner is thanked for the indication that claims 2-11 would be allowable if rewritten in independent form including all of the features of the base claim and any intervening claims. The allowable features of claim 2 have been added to independent claim 1, claim 2 has been canceled, and the dependency of claims 3-6 has been connected. Accordingly, independent claim 1 should be in condition for allowance, along with claims 3-6 and 12, which depend therefrom. Further, claim 7 has been rewritten in independent form. Accordingly, claim 7 should be in condition for allowance along with claims 8-11 and 19, which depend therefrom.

The Office Action objected to the claim listing. The claim listing has been amended to address the Examiner's comments. Accordingly, the objection should be withdrawn.

The Office Action objected to the specification for informalities. The Examiner's comments have been addressed in amending the specification. Accordingly, the objection should be withdrawn.

The Office Action objected to the title as allegedly being not descriptive. By this amendment, the title has been amended to be more descriptive. Accordingly, the objection should be withdrawn.

The Office Action objected to the Abstract. The Examiner's comments have been addressed in amending the Abstract. Accordingly, the objection should be withdrawn.

The Office Action rejected claims 1 and 12 under 35 U.S.C. §102(b) as being anticipated by Seo, U.S. Patent No. 6,089,836, or Oh et al. (hereinafter "Oh"), U.S. Patent No. 6,202,791, and rejected claims 1 and 12 under 35 U.S.C. §102(e) as being anticipated by Heo et al. (hereinafter "Heo"), U.S. Patent No. 6,881,042. These rejections are moot in view of the amendments discussed above.
